Amanita muscaria is provided as a courtesy and participant agrees to use it at their own discretion. Amanita muscaria can be dangerous in higher doses, participant agrees to use mushrooms responsibly when in the event or on the premises. Amanita muscaria is dangerous to consume in conjunction with alcohol, benzodiazepenes, and other GABA drugs like Lyrica, sleep medications, and opiate based painkillers including natural ones. Participant agrees not to use amanita muscaria if they have consumed any of these substances in the past week. If you take any of these substances, please see a health care professional before stopping any medication. Cannabis has been seen to reduce the effects of amanita.

No one at this venue can give advice on medications or the use of A. Muscaria and its effects vary widely. It is being provided as a courtesy like an open bar. It is expected that you will use wisely and not become a liability.

Participant agrees to hold harmless, the venue, facilitator and providers of the event, in the case of adverse reactions to amanita muscaria. Please do not bring illegal substances to the event. We want everyone to have an amazing experience. Following these guidelines helps. Not everyone will get the same experience with amanita. Come with an open heart and mind and allow the medicine to work in the way it sees fit. Dreamer will be guiding your experience and watching to make sure you are okay and checks in with each participant frequently. You will be in a loving space.

Please bring a drum and if you don't have one, let the event organizer know.

Please sign to acknowledge you have read this and agree to these terms. Thank you!
